- 12:00pm** **AGM**
12:45pm **Lunch – a light lunch will be provided**
13:30pm **Presentation by Dr Janet Baldwin**

Oral History of Perth Observatory

Perth Observatory, since its establishment in 1896, has been a major contributor to astronomy. Important discoveries have been documented in scientific journals and records.

Janet Baldwin was commissioned to capture the personal stories of staff and early volunteers who worked at the Observatory to give new perspectives and fill gaps in the written records.

Join us to hear the many voices and history of the Perth Observatory.
