

Interviewing Skills
A practical workshop with Bill Bunbury

Do you know a special someone whose life story or interests should be recorded for either the sake of the family, the community, the organisation, or as a contribution to WA's history?

The glitch is that you don't feel confident or perhaps don't know how to get started?

Join us for an enjoyable afternoon with Bill Bunbury who will give you firsthand experience and shared feedback about developing your skills. Although, it might be that you simply need to refresh what you know already.

Don't worry about recording equipment because you won't need any!
